7. CORRESPONDENCE & ANNOUNCEMENTS

The Board discussed requests for using the meeting spaces at the Library.

The Board discussed procedures for handling petty cash and the process that shows how much petty cash is being collected and distributed. Larry said the process has been created to show how much is being collected and allocated but the Board members have not been given a report of it. Treasurer McCaskill stated that the money should not be distributed/used however the process currently allows, and that any revenue distributed must be approved by the Board. President Price directed Attorney Maryclare Touhy to draft a finance policy which includes a process for petty cash accounts for checks and balances.

8. TREASURER'S REPORT

Treasurer McCaskill read the September 2023 Treasurers report.

Roll Call was read by Interim Director Kim Peake.

Trustee Keith Price – Yes
Secretary Chapelle Hooks – Yes
Treasurer Anthony McCaskill – Yes
Vice President Monique Williams – Yes
President Tamika Price – Yes

Motion passed unanimously.

HARVEY PUBLIC LIBRARY DISTRICT

October 27, 2023

BOARD MEETING MINUTES

1. Call to Order

The regular Board Meeting to order at 4:00 p.m.

2. Roll Call

Present: President Tamika Price, Vice President Monique Williams, Treasurer Anthony McCaskill, Secretary Chapelle Hooks, Trustee JoAnn Nesbitt, Trustee Keith Price, Trustee Charwana Morgan

3. Audience Participation

4. Discussion and Approval of Bills

A. Approval of October Bills List

5. New Business

A. Proposal for Urban Farming at the HPLD

Trustee Keith Price is asking how the library will benefit from having Hydroponics courses being taught within the library after hours?

Phil explains that the library is benefiting by becoming a center of influence. The library is becoming more packed with activity because to the program they are holding here. People that were not coming to the library are now looking at the programs offered and are now coming to this place as a place of opportunity.

Trustee Keith Price asks for the number of Harvey residents involved within his four classes being held at the library?

Phil states there are at least 35 Harvey residents attending the entrepreneurship training classes.

Calvin Young adds that not all are Harvey residents. Other attendees are locals from the city. He states that there is one person from Michigan City, Indiana in the Hydroponics class.

Treasurer McCaskill asks how much is the grant that they are currently receiving?
Phil responds they currently have 1 grant for \$468,000 annually.

Treasurer McCaskill asks for how many communities?

Phil responds 5 on the west side, 5 on the south side and 5 in the south suburbs.

Treasurer McCaskill asks for the breakdown of how the grant money is allocated as far as payments, payroll and expenses?

Phil responds there are 4 people that work for the company himself, Director of Operations, Program Director and Executive Administrator. All instructors are independent contractors, there is equipment expenses, office space rental, insurance and other basic operating expenses. The goal is to be able to take 10 businesses from each community and travel out of the country to connect them with foreign businesses. Once they leave the county this will change their perspective on everything. He states he is an avid international traveler.

Treasurer McCaskill is asking if there is any room in the grant for partnership where they can help with the costs of heating and lighting for the facilities they use.

Phil responds not at this point.

Treasurer McCaskill states that currently the costs of holding the classes are coming out of the General fund. That is why when Trustee Price asks how many are current Harvey residents? If they are Harvey residents, I have no problem with it. But when the attendees expand outside the community that is an issue.

Phil states that next semester they can make sure only Harvey residents are allowed within the program. Right now they have it open to anybody. Currently they keep the class size to 20 because entrepreneurship is difficult to teach. We have a large 35 team here because we accepted everyone.

Treasurer McCaskill states this is something we should look at because we have to pay staff, lights, gas and utilities because we wouldn't generally be open during these times your classes are held. This incurs more of a cost to the library. If we could have been placed in partnership that could have taken 42-43% from the tax levy so people would not be paying taxes to help us operate at 100 percent rate.

Phil states that they could try to charge to help cover the library costs but they rather keep it free to the residents. Phil states he doesn't sell anything they are having residents start businesses so they can sell.

Treasurer McCaskill states that whenever there is finances being crossed and there is grant money, then there is Harvey Library which is sort of a nonprofit organization but we're still government it becomes a little sticky on how things break up.

Phil states he is sure we can figure out away. For instance, instead of donating that money to the food bank maybe we sell that money and that money goes to the Harvey Library. I am always trying to do things in the community for free, but after the 1st of this year we have to go to running well or we can't survive.

Calvin Young states there is a few centers in Chicago that do this but we need your partnership to really make this happen.

President Tamika Price states that Tresurer McCaskell and Trustee Price presented some of the questions I had. I did want to make it clear we are talking about 2 different programs that are currently existing and that you are aware these programs are held outside of our operating hours.

Phil states that he is aware and every Tuesday at 9:00 p.m. we are flicking the lights out. They understand they have to be out.

President Tamika Price verifies that the library typically closes at 6:00 p.m. on Tuesday.

Director Kim Peake verifies with a "yes."

President Tamika Price would like to look at a percentage of the proceeds coming to the library for operating costs. She states this would be a win win for the community and for the district. Everyone asked all the other questions I had. I know you mentioned an Art Contest and we discussed cobranding with the library districts signage or branding on the container. I don't have anything additional. She asks Vice President Monique Williams if she has anything additional.

Vice President Monique Williams states "yes." I want to say thank you for thinking of us, coming here and bringing programs because we haven't had much going on. I just wanted a little clarity, you stated that 30 percent of the produce will be donated and the other 70 percent will be sold.

Phil states the produce can be sold and or donating to the hospital, senior centers or however you would like it to be distributed.

President Tamika Price states the idea is that you are going out to contract, right.

Phil states yes, economic development that is what we do. People start businesses and figure out ways to become self sufficient. Urban Farming is a way to do that and with the properties in Harvey. He discusses his background of previously being the Director of Operations of Life House in Dixmoor. He left there because the State asked him to apply for this. I also use to run a Section 8 voucher program in Chicago Housing Authority. So my background in the community is very deep and it comes from a place of wanting to make things better for our people. That's it. Our instructors and those he hires into the company have to have that same passion and desire to make things better for our people. So that is why everything is free but we won't be around long if we keep doing that. We just bought an online platform because we are getting people from Ghana, Texas, and LA trying to get into our online program. So we must start charging for that. Right now we are twenty months into this grant. This was really to just get started and get a foot hole into the community. They have software that when people register they can see the zipcode of those registering for the class. They can see whether they qualify for free services by the zipcode. Everyone in Harvey qualifies. This is how we can separate this out and make sure the right people are getting it as you mentioned earlier.

Secretary Chapelle Hooks states that is what she wanted to specifically ask about. The people that are not Harvey residents, are you charging them a fee to attend this program? I also wanted to know if you wanted people to volunteer to help with the Container.

Phil states that Calvin will be running it. He will be looking for people that are trying to do work within hydroponics to volunteer their time. They only need one or two people throughout the week and like I said we can monitor everything through cell phones. So we can see everything that is going on in there. We are looking for two people to help work the garden help us grow those other businesses.

Vice President Moniques Williams asks if the volunteers have to be Harvey residents?

Phil states that they should be.

Vice President Monique Williams states this will have to be a requirement that the volunteers have to be Harvey residents.

Phil responds he is game to work it out any way they would like so that it is a win, win situation. That is what he would like also that the volunteer is a Harvey resident.

President Tamika Price states if it is the Boards pleasure to move forward with the Letter of Intent or the Letter of Support, what does it look like on a ongoing basis that the things we are looking for are incorporated? If the grant is awarded?

Phil states the grant will be awarded some time next year. Start date is July1, 2024. It will probably some time in September or October. Between now and then we will keep working out our memorandums and understanding our agreements to see what works best. Should we win the grant then we will go according to our agreements that we worked out over these last couple months.

President Tamika Price thanks Phil and states we are going to move forward with the agenda.

President Tamika makes a motion to approve a Letter of Support for the Urban Farming Hydroponics initiative.

Trustee JoAnn Nesbitt-Yes

Secretary Chapelle Hooks-Yes

Treasurer Anthony McCaskell-Yes

Vice President Monique Williams-Yes

President Tamika Price-Yes

President Tamika Price States that we will move back to the Audit update.

B. Audit Update

Director Kim Peake calling O'Neill and Gaspardo to speak with Brett Moeller for Board discussion on audit.

Brett states he will give a quick update on where we stand with the audit. For the June 2020 fiscal year on the audit we are waiting on a few minutes which will probably approve tonight. Then Kim will forward it off to us. Then there was some work that Larry

was doing to file off on a few areas where, Kim and I talked about concerns there could be fraudulent activity and some other issues. Once those are finalized we can move forward finishing up that audit. We have the draft of the Financial Statements done so it is pretty far along. When we get those final pieces we should be able to finalize everything pretty quickly.

President Tamika Price asks which minutes he is looking for?

Brett states we are looking for minutes for any Board Minutes from June 9, 2023-July 31, 2023. We have those so I am not sure why you don't have them.

Treasurer McCaskill says, Hold on, so what does that have to do with the previous audits that are past due?

Brett states next week if Kim can send those minutes over to him .

Director Kim Peake agreed. OK.

Treasurer McCaskill says, So what about 2021 and 2022?

Brett states that 2021 they've got a big part of that audit done also. They haven't starting the draft of the financial statements yet because we want to finish 2020 first. So once 2020 is completed then we can move on to 2021 then we can complete that fairly quickly too.

Treasurer McCaskill says Brett do we have a timeframe for when the 2019 and 2020 audits are completed? What type of timeframe are we looking at because it has been delinquent for a couple of years.

Brett Moeller states once he gets those final pieces from Larry then he could give a timeline. He can email that out to Director Kim Peake and President Tamika Price. He states he understands and he is just as anxious to get these audits done. Then for the year of June 2022, Larry was working on compiling needed information that was worked on 2015, 2020 and 2021 audits. Once we get done with 2021, we can jump on 2022 fairly quickly. That is where all the audits stand at this point.

President Tamika Price asks why the minutes of the current year is necessary to complete the 2020 audit?

Brett states that is a good question and the reason is when you do an audit you are not

just looking at the transaction and the Board Meeting Minutes for that fiscal year. You also have to look at transactions and Board Meeting Minutes subsequent to that fiscal year to see if there is any items that are significant enough that would impact the year we are auditing or there might be some new debt issue due to other things that happened after fiscal year. Although they are not in the fiscal year we're auditing we are required to disclose in the notes of the financial statements.

Once we get the minutes and the final pieces from Larry, the Internal Revenue process typically takes a couple of weeks to get all that finalized. We are anticipating a couple of weeks to complete.

President Tamika Price asks if it would be completed before mid December. Brett states that is what he would think.

President Tamika Price states we don't have any other questions and Thanks Brett Moeller.

C. President Tamika Price makes a motion to table a credit card processing vendor.
